

GOOD BOOKS FOR REFERENCE :

Java

[The Complete Reference](#)

[Head First Java](#)

[Effective Java](#)

[Java Concurrency in Practice](#)

[Java 8 in Action](#)

Quality Development

[Clean Architecture](#)

[Clean Code](#)

[The Clean Coder](#)

[Code Complete](#)

[The Pragmatic Programmer](#)

[Refactoring](#)

Software Developer Career Guide

[Complete Software Developers Career Guide](#)

[Software Developers Manual](#)

[Career in Software Development](#)

Algorithms

[Algorithms in Java - Sedgewick](#)

[Introduction to Algorithms - Cormen](#)

[Algorithm Design - Skiena](#)

Design Patterns

[Head First Design Patterns](#)

[Design Patterns - Gang of Four](#)

Coding Interview

[Elements of Programming Interviews in Java](#)

[Cracking the Coding Interview](#)

[Programming Interviews Exposed](#)

[Coding Interview Questions](#)

Python - AI/ML

[Python Workbook - Basics](#)

[Learn Python Visually](#)

[Illustrated-Guide-Python](#)

[Python ML with Scikit and TensorFlow](#)

[Python Machine Learning](#)

[Deep Learning](#)

Web Dev - Front End

[Smarter way to learn JavaScript](#)

[Smarter way to learn HTML/CSS](#)

[Smarter way to learn jQuery](#)

Others

[Object Oriented Analysis & Design](#)

[Image Processing & Pattern Recognition](#)

[Distributed and Parallel Computing](#)

[Fuzzy Logic](#)

[Artificial Intelligence](#)

[Machine Learning](#)
